Dear Professor Kielland-Brandt,

Thank you for the changes in the Evaluation Report that take into consideration our statement. I would like to reassure you that our comments were not meant as a request for the reassessment of your Report but as an explanation of some points that were not clearly mentioned in the submitted materials or the presentation.

We have truly appreciated your valuable recommendations that will be helpful for our Institute and its research teams in the near future.

Sincerely yours

Martin Bilej
