

**INSTITUTE OF MICROBIOLOGY**  
of the Czech Academy of Sciences

*Director*

Prague, June 2, 2021

Commission 5.1

Mr President and members of the Commission,

Managing the Institute of Microbiology of CAS in the Covid 19 era is an exceptional but real experience in my life. You have also done a great job in this regard by participating in the online evaluation of CAS institutes during this time.

I, the members of the IM Council and the team leaders, understand your conclusions and recommendations in C 5.1 - Final Report. We very much appreciate the Commission's final words that "It is an outstanding institute in science and infrastructure and brings great benefits to society." I am sure you would get much more information about our teams if this pandemic situation were gone. Maybe the next time...

Regarding evaluation:

- i) The online evaluation process went smoothly and according to the predicted rules.
- ii) We have no objections or comments regarding the Final Report. We will definitely use your recommendations to improve the quality of results and the life success of our employees.

Thank you very much for your efforts to meet the goals of the CAS evaluation.

Regards,

Jiří Hašek
