Statements of the Director on Final report revision of the Comission No. 7

I am happy to see that most but not all of my comments raised in the previous „Statements“ were carefully considered for the Final report revision.

Even though there are still some points I disagree with, but I am happy with the current version of the Report.

Best regards,

Assoc. Prof. Dr. Ing. Marcel Honza
Director of the Institute of Vertebrate Biology
Brno, Czech Republic
