

## Projekty pracovišť AV ČR realizované se SAV (Slovensko) v období 2025–2026

Registrační číslo	Název projektu	Ústav AV ČR	Zahraniční pracoviště
<b>SAV-25-01</b>	Critical evaluation and publishing access of Slovak folklore texts from the so-called Moravian collections of Frank Wollman ("whitespaces" in the history of Czech and Slovak folkloristics and Slavic studies)	SLÚ	Ľudovít Štúr Institute of Linguistics of Slovak Academy of Sciences
<b>SAV-25-02</b>	Changes in biomembrane molecules associated with mammalian sperm maturation	BTÚ	Centre for Biosciences of the Slovak Academy of Sciences, organizational component Institute of Biochemistry and Genetics of Animals
<b>SAV-25-03</b>	Membrane microdomains mediate bidirectional communication between plasma membrane and mitochondria	ÚEM	Centrum biovied SAV, v. v. i., Ústav biochémie a genetiky živočíchov SAV
<b>SAV-25-04</b>	Untangling the spatial microbial diversity within roots of endemic saxicolous shrub <i>Daphne arbuscula</i>	BÚ	Plant Science and Biodiversity Centre, Slovak Academy of Sciences
<b>SAV-25-06</b>	Monitoring and analysis of seismically active zones focusing on the Hronov region in the Czech Republic and the Little Carpathians in Slovakia	ÚSMH	Ústav vied o Zemi SAV, v. v. i. Geofyzikálny odbor
<b>SAV-25-09</b>	Radioluminescent optical fibers for distributed sensors of harmful radiation	ÚFE	Institute of Materials Research of SAS
<b>SAV-25-10</b>	Hunting for the nature of the stellar brightness variability	ASÚ	Astronomický ústav Slovenskej akadémie vied
<b>SAV-25-11</b>	Development of CVD Diamond-Integrated Gallium Oxide Rectifying Diodes with Improved Thermal Performance and Electric Field Management	FZÚ	Institute of Electrical Engineering SAS
