

CAS-SAV (Slovakia) projects implemented from 2025 to 2026

Registration number	Project title	CAS institute	Foreign institute
SAV-25-01	Critical evaluation and publishing access of Slovak folklore texts from the so-called Moravian collections of Frank Wollman ("whitespaces" in the history of Czech and Slovak folkloristics and Slavic studies)	SLÚ	Ľudovít Štúr Institute of Linguistics of Slovak Academy of Sciences
SAV-25-02	Changes in biomembrane molecules associated with mammalian sperm maturation	BTÚ	Centre for Biosciences of the Slovak Academy of Sciences, organizational component Institute of Biochemistry and Genetics of Animals
SAV-25-03	Membrane microdomains mediate bidirectional communication between plasma membrane and mitochondria	ÚEM	Centrum biovied SAV, v. v. i., Ústav biochémie a genetiky živočíchov SAV
SAV-25-04	Untangling the spatial microbial diversity within roots of endemic saxicolous shrub <i>Daphne arbuscula</i>	BÚ	Plant Science and Biodiversity Centre, Slovak Academy of Sciences
SAV-25-06	Monitoring and analysis of seismically active zones focusing on the Hronov region in the Czech Republic and the Little Carpathians in Slovakia	ÚSMH	Ústav vied o Zemi SAV, v. v. i. Geofyzikálny odbor
SAV-25-09	Radioluminescent optical fibers for distributed sensors of harmful radiation	ÚFE	Institute of Materials Research of SAS
SAV-25-10	Hunting for the nature of the stellar brightness variability	ASÚ	Astronomický ústav Slovenskej akadémie vied
SAV-25-11	Development of CVD Diamond-Integrated Gallium Oxide Rectifying Diodes with Improved Thermal Performance and Electric Field Management	FZÚ	Institute of Electrical Engineering SAS
